### ALEXS

Geographically, the Alexs winery (11ha) is located in northern Burgenland, not far from the shore of Lake Neusiedl in Gols. Alexs relies on spontaneous fermentation for all its wines. Alex Schreiner says about his wines: No easy to drink wines without corners and edges. But a clearly traceable origin profile, varietal and vintage typicity and the handwriting of a sensitive winemaker. My wines are what comes out of my vineyards, what went through my mind and then off my hand during the year, the harvest and afterwards.
