L'ANIMA DI VERGANI
As long as I can remember, wine and everything connected with it has dominated my life. I grew up in an effort to always find something special, exclusive. Together with our long-standing producers in Italy and young, innovative winemakers, I am now realising my idea of "L'ANIMA DI VERGANI". These are wines that are selected on site and whose development I personally accompany until their completion. I vouch for the fact that you can only buy these wines in first-class restaurants, designated specialist shops and of course in our Enoteca.
