Vinification Matures for 10 years in wooden barrels.

Grape varieties 100% Trebbiano

Alcohol 40.0%

Format 150 cl

### POLI JACOPO

The Poli distillery was founded in 1898 and is now run as a family business by siblings Barbara, Andrea, Giampaolo and Jacopo. The distillation is traditionally discontinuous, which produces the best quality. However, the raw materials are of different nature, depending on the final product. Thus, for the classic grappa production, the marc goes to the distillation and for the "Chiara" line, the whole berries with skin and pulp. Worth seeing is also the Grappa Museum, which is attached to the distillery and can be visited daily.
